TWO EGGS A WEEK FOR EACH CHARITY PATIENT

Thirteen thousand patients in the nstitutions controlled by the Charities Department were made happy tolay by an announcement from Commissioner Kingsbury that the inmates will shortly enjoy two fresh eggs

It was Comm. loner Kingsbury's ambition when he took office fourteen months ago to give each patient in his institutions two eggs a week ing on the Gulf of Saros, which is but when he came to figure it out he \$27,000 a year. The annual budget would not meet that expense.

"Here's how we've done ft," sale Commissioner Kingsbury to-day. "The installation of a piggery on Staten Island is saving \$7,000 a year which was formerly expended for fresh meat. Our artificial ice will save not less than \$14,000 a year. The other \$6,000 will be made up when our coffee roasting plant is in operation. We can buy the green coffee at a com paratively small expense and not roast it until it is needed."

Abarno and Carbone, Who Are Ex pected to Plead Guilty, Now Accuse Police Spy for Inspiring Destruction.

ALL VIOLENT "REDS" NOW UNDER EYES OF THE POLICE

The Grand Jury found an Indictment this afternoon against Preside Abarno and Charles Carbone, who manufactured and placed two bo n St. Patrick's Cathedral vesterday. They were arraigned before Ju-Swann and were held in \$25,000 ball each until next Priday, when the will be called for pleading.

Abarno told the Court that while he and Carbone had made the placed the bombs, another man had done 75 per cent. of the work. The nan. Carbone said, he believed was a detective. Since learning that the man they knew as Baldo was a police spy Carbone and Abarno have and ified the unconditional confessions they made at Police Headquarters terday. Then they made no accusations against the man they know as Baldo except that he was a party to the co that he inspired them to go to St. Patrick's Cathedral.

The indictments were found under Section 1895 of the Penal Ca an amended statute adopted at the last session of the Legislaturer

"A person who places in, upon, under, against or near to say building, car, vessel or structure gunpowder or any oth sive substance, with intent to destroy, throw down or intere the whole of any part thereof, under such circumstances that, if the intent were accomplished, human life or safety would be esdangered thereby, although no damage is done, is guilty of a felony and upon conviction shall be punished by imprin State prison for not more than twenty-five years."

Although Carbone took no actual part in placing the bombe in athedral it is held that inasmuch as he manufactured them, kn the use to which they were to be put, he is as culpable as Aberne trial of the pair will be called as soon as legal requirements permit is expected that the men will plead guilty, in the light of their c
